► **Product Description:**

Dependable Control with Precision Design

Introducing our 19mm **momentary switch push button**, crafted from high-quality stainless steel. This switch is your key to reliable control in various applications, where precision and durability are paramount.

Built to Withstand

The stainless steel construction not only guarantees durability but also provides IP67-rated waterproof protection. This means the switch can thrive in harsh environments, indoors or outdoors, without a hitch.

Flexible NO NC Contact Configuration

With a versatile 1NO1NC or 2NO2NC contact configuration, this switch empowers you to control your circuits just the way you need. Whether it's momentary action or latching, this switch has the capability.

Easy Installation with Pin Terminals

Installing the switch is a breeze, thanks to its pin terminal design. It's engineered for swift connection to your electrical system, ensuring minimal downtime and enhanced efficiency.

Custom Head Symbols for Your Needs

What sets this switch apart is its ability to accommodate custom symbols on its head. You can personalize it to suit your unique requirements, making it an excellent choice for specialized applications.

Momentary and Latching Modes

This switch offers both momentary and latching operation modes. Whether you need a brief touch or a continuous hold, this switch delivers the flexibility your applications demand.

Versatile Material for Any Environment

Constructed from stainless steel, this switch is designed to excel in a wide range of industries, including industrial automation, automotive, marine, and more. Its robust design ensures it can handle demanding conditions with ease.

Elevate Your Control Systems

For precision, durability, and adaptability, our Custom Symbols Momentary Push Button Switch is the answer. Upgrade your control systems today with this stainless steel switch and experience reliable performance like never before.
